

# Thurrock admission arrangements

## Secondary schools 2023/24

If a school is oversubscribed, places are allocated in accordance with the school's published admission criteria – also known as admission policies or admission arrangements.

The admission authority for a school or academy must set admission arrangements annually.

For community schools, the admission authority is the local council.

For voluntary-aided schools, academies, and free schools, it is the school's governing body or academy trust.

In Thurrock, all secondary schools are either academies or voluntary-aided schools, therefore the determined admission arrangements for these schools will be set-out within the individual school's website – see links below.
