

Local self-assessment for adults with autism - Spreadsheet v5

This is a framework to help support Local Authorities and NHS organisations and their partners to implement the statutory guidance 'Implementing 'Fulfilling and rewarding lives' in their localities. The self -assessment is primarily for commissioners as a template to begin their planning to respond to the statutory guidance. It is not intended to be used by people with autism or their carers, but it is expected that they would be part of any local self-assessment planning processes. In addition to this, it is important to be aware of the consultation currently taking place on the future of the NHS following the NHS White Paper. In order to prepare for these changes it will be important for localities to bear in mind the changes planned and engage with:

- people with autism and their carers
- GPs and GP consortia as they develop
- NHS providers
- Social care providers: independent and voluntary sector and social enterprises

The focus of implementation will be at local level. DH Deputy Regional Directors (DRDs) will work with a range of regional and local partners, including Association of Directors of Social Services, the Strategic Health Authority and wider NHS and social care sector to develop a Regional Action Plan. This plan will help to facilitate peer support and sharing of good practice to speed up implementation of the National Autism Strategy. Local leads are asked to identify any areas of good practice that can be shared or where peer support or collaborative approaches at a sub-national level could support local implementation. Some regional partnerships may also have capacity to put in place additional mechanisms to collate information from the local self-assessments.

Local self-assessment for adults with autism

Instructions:

There is one spreadsheet page for each of the sections in the Self Assessment.

Sections have rating questions (the boxes with bold lines around them) and comment questions.

Rating questions are answered 'Red', 'Amber' or 'Green'. These may either be typed in or selected from a drop down menu in the rating boxes.

Comments are entered in the comment boxes. Be sure to DOUBLE CLICK your mouse in each box before entering your notes. Notes can then either be typed in or pasted from another document. IF YOU ONLY SINGLE CLICK IN THESE BOXES THE FORMATTING CANNOT BE EFFECTIVELY PROTECTED AND YOU MAY BLOCK THE SPREADSHEET. Comments are limited to 1000 characters in most cases, but 2000 characters for the final questions.

Click on the links below to go to the sections. In each section you have an option to click on links to the Next Section or the Instruction Page. The Instruction Page link will bring you back here. **REMEMBER TO SAVE YOUR WORK AFTER EACH SECTION. The easiest way to do this is to press the Control and S keys together.**

When you have completed the exercise **SAVE YOUR WORK AGAIN**. Then you can print out the results for your own use using the normal EXCEL print command. Remember to tell EXCEL to print ENTIRE WORKSHEET. You should email the whole spreadsheet to the Improving Health and Lives: Learning Disabilities Observatory at AutismSAF@ihal.org.uk.

Any updated instructions will be placed at www.ihal.org.uk/AutismSAF. Questions can also be forwarded to the email address.

The check numbers below show only how many of the questions have had entries made. The questions on the Optional Numbers page are optional, but they use items suggested as for local review in the published Framework.

Additional questions section

Questions answered: 1/1

There is a small number of additional questions to be answered. Please read the questions below. You will first be asked if you are in a position to use or separate-out data available to you to answer some or all of questions 4 to 12. If you answer 'YES' to this, then answer the blue questions (3 to 12). If not then go to question 2 (green) and answer it to complete your input to this section.

Instructions:
Enter answers in this column.

Question

Enter Answers here

1. Are you in a position to use or separate-out data available to you to answer some or all of questions 3 to 13 below?

No

2. Has a new or re-established Diagnostic Pathway been developed in the last 12 months

No

3. How and where is this data recorded?

Please now answer as many of the remaining questions as you can.

4. What is the NUMBER of people (of any age) who have been assessed in the past 12 months using the diagnostic pathway.

5. What is the NUMBER of adults (aged 18 and over) with autism (including Asperger syndrome) currently known to the local authority?

46

6. What is the NUMBER of these in PAID WORK (include both full time and part time work)?	
7. What is the NUMBER of these living in their OWN HOME or WITH THEIR FAMILY?	17
What are the NUMBERS of these living in RESIDENTIAL OR NURSING CARE ESTABLISHMENTS:	
8. WITHIN the Local Authority Area?	1
9. OUTSIDE the Local Authority Area?	21
10. Total living in RESIDENTIAL OR NURSING CARE ESTABLISHMENTS?	
11. What is the NUMBER of adults (aged 18 and over) with autism (including Asperger syndrome) who currently (at 1st January 2012) receive support from the Local Authority in the form of a PERSONAL BUDGET?	
12. What is the NUMBER of adults (aged 18 and over) with autism (including Asperger syndrome) who currently (at 1st January 2012) receive care from SPECIALIST MENTAL HEALTH SERVICES?

Quality Outcome 3

Ratings: 3/4 Comments: 10/12

Adults with autism are living in accommodation that meets their needs.		In this box enter your overall rating for this area		Instructions: In column 4 select Red/Amber/Green from drop-down. In columns 2, 3 and 5, click on cell and enter text. Maximum length 1000 characters.	
(1) Key Outcomes. Assessing progress in your local area	(2) Good things happening State evidence	(3) Where do things need to get better? What are the gaps?	(4) How do we score?	(5) One thing we want to be better in 12 months (Key priority)	
Are you seeking/surveying the views and experiences of people with autism to see if accommodation is suitable?	Thurrock Council plans on holding stakeholder events which will include the views of people with ASD on accommodation needs.	We need to gather a range of views from people right across the autistic spectrum at workshops in Spring 2012. Will use a range of different methods to gather views	Red	Need to establish regular forums for gathering peoples views. Continue to gain views from existing forums such as Disability Boards and Learning Disability Partnership Board.	
Is your local housing strategy addressing the short and long term requirement of adults with autism?	The recently produced strategy has been widely consulted on but we note that there still needs to be more input in specific areas, one of those autism. Housing colleagues are engaged with us with implementation of the strategy to ensure these groups including autism are supported appropriately	A mapping exercise for current and future need will inform the implementation plan. People with ASC need to be fully engaged in areas of service development We will be implementing the findings from the recent Alder Project Project currently being undertaken using existing ex warden properties within sheltered housing as a step down facility with independent living skills support.	Amber	To be clear about the level of need	
Are people with autism involved in this?					

Does your commissioning plan cover the roles of the community, voluntary and independent sector in delivering support services, including help with accommodation?	The South Essex wide strategy will cover the issues highlighted. The delivery of this plan is expected autumn 2012	Preparing the strategy has shown us there needs to be significant improvement in supporting people with autism to live independently in supported accommodation	Amber	By March 2013 increase the number of people supported into accommodation

Quality Outcome 4			Ratings: 3/4 Comments: 7/12	
Adults with autism are benefiting from the personalisation agenda in health and social care, and can access personal budgets.		In this box enter your overall rating for this area		Instructions: In column 4 select Red/Amber/Green from drop-down. In columns 2, 3 and 5, click on cell and enter text. Maximum length 1000 characters.
(1) Key Outcomes. Assessing progress in your local area	(2) Good things happening State evidence	(3) Where do things need to get better? What are the gaps?	(4) How do we score?	(5) One thing we want to be better in 12 months (Key priority)
Do you know how many people with autism there are in your area?	There are currently 30 people with autism in receipt of services and 17 people with Aspergers. 21 of these people live outside of Thurrock.	Thurrock Council's information system (IAS) did not have the facility until February 2012 to differentiate between LD and autism. That facility is now available and will give us a clearer picture. Further development work needs to be completed so that we have accurate figures of people falling within this specific group More accurate data will be available in 2012.	Amber	Increase the numbers of people receiving a direct payment/personal budget.
Do you know how many adults are in receipt of a personal budget?	We do not currently collect this data centrally but anecdotally we have 2 people with Autism receiving a personal budget	More accurate data will be available in 2012.	Amber	
Are all assessments conducted in line with processes and principles adopted in the development of <i>Working to Put People First: The Strategy for the Adult Social Care Workforce (England)</i>	We have a workforce plan which was co-produced with our user led organisation. Also through the implementation of the personalisation agenda	More training on this to be rolled out	Amber	
Are you offering appropriate support following screening?

Adults with autism are involved in service planning.		In this box enter your overall rating for this area	Instructions: In column 4 select Red/Amber/Green from drop-down. In columns 2, 3 and 5, click on cell and enter text. Maximum length 1000 characters.	
(1) Key Outcomes. Assessing progress in your local area	(2) Good things happening State evidence	(3) Where do things need to get better? What are the gaps?	(4) How do we score?	(5) One thing we want to be better in 12 months (Key priority)
Have you established strategic planning mechanisms or involving people with autism and their carers?	We have established a working group and the next stage of this now is to ensure people with autism and their carers are part of the strategy development	We will be engaging people with autism through stakeholder events, surveys etc. Consideration is given to establishing an autism specific partnership board. The possibility of setting up services in conjunction with Essex and Southend Councils and PCT South cluster	Amber	Ensure a range of views are gathered
Have you held any consultation events in your area?	The LD review of services which includes ASD was consulted on at LD partnership board and health sub group. Our User Led Organisation, Thurrock Coalition have held one engagement event with people with autism and their carers which was welcomed by everyone	More engagements sessions to take place as the strategy develops	Amber	
Are you able to provide advocates to work with adults with autism?	Thurrock Council currently commissions advocacy services through Batias, Voiceability and Thurrock Mind	Currently Thurrock MIND provide a very professional service to those who experience Aspergers and we will be working with other providers to ensure the same level of service	Amber

Service Ambition 1			Ratings: 3/4 Comments: 8/12	
Local authorities and partners know how many adults with autism live in the area.		In this box enter your overall rating for this area	Instructions: In column 4 select Red/Amber/Green from drop-down. In columns 2, 3 and 5, click on cell and enter text. Maximum length 1000 characters.	
(1) Assessing progress in your local area	(2) Good things happening State evidence	(3) Where do things need to get better? What are the gaps?	(4) How do we score?	(5) One thing we want to be better in 12 months (Key priority)
Does your JSNA mention adults with autism? Have you plans to collect and collate relevant data about adults with autism.	The Thurrock JSNA is currently being refreshed to ensure it reflects the current priorities for Thurrock and is able to drive commissioning and decision-making. It includes reference to autism and provides high-level estimates of the number of people with currently in receipt of services and the numbers predicted to need services in the future	There are plans to improve the functionality in the adult social care client database to better capture information about autism from 2012 onwards. Resource has also been identified to develop a commissioning strategy for people with autism. This will include development of better insight about autism in Thurrock. Better understanding of the extent of autism across adults in Thurrock and a strategy for meeting needs with appropriate services and support.	Amber	To have a more robust figure on the number of people with autism who do and do not use services
Is your LA following the Special Education Needs (SEN) statutory guidance around transition planning in relation to their social services responsibilities for children and young people?	Thurrock Council has a well established transition steering group which includes adults and children services, health and voluntary sector as well as representation from people going through transition		Amber	Continue the good and positive work
Are numbers identified?	yes			

Is your LA considering allocating responsibility to a named joint commissioner/senior manager of community care services for adults with autism in the area?	Thurrock Council has a lead from both commissioning and operational services	Improving access for adults with autism so they can access the support they need	Green

Local self-assessment for adults with autism

Service Ambition 3				Ratings: 4/4 Comments: 11/12	
Health and social care staff make reasonable adjustments to services to meet the needs of adults with autism.		In this box enter your overall rating for this area		Instructions: In column 4 select Red/Amber/Green from drop-down. In columns 2, 3 and 5, click on cell and enter text. Maximum length 1000 characters.	
(1) Assessing progress in your local area	(2) Good things happening State evidence	(3) Where do things need to get better? What are the gaps?	(4) How do we score?	(5) One thing we want to be better in 12 months (Key priority)	
Are staff who carry out assessments receiving training on how to make adjustment in their behaviour and communication?	There is on-line training available for all staff across the Council, Private and voluntary sector within Thurrock. We will audit this to see effectiveness and take up. We are currently undertaking a staff survey to identify training gaps	There needs to be a clear training plan in place which identifies training needs across a range of staff.	Amber	A clear training programme in place	
Have you considered what autism awareness training is made available to all staff working in health and social care and how training can be prioritised?	Staff training needs are identified each year.	Once results from staff survey are known we will develop an appropriate training –plan.	Amber	To ensure that training programmes are available to all relevant stakeholders	
Have you plans to survey staff, service users and carers on different aspects of the service?	We will be engaging service users and carers throughout the development of the strategy and action plans.	We plan to hold a stakeholder event in March 2012. A staff survey has been developed and will be completed in Spring	Amber		
Do you include autism within key procedures?	Specific reference to autism within some key procedures such as Equality and Diversity	Autism included increasingly in key policies and procedures within Thurrock,	Amber	Agreement on the particular policies and procedres which should have specific reference to autism	

Local self-assessment for adults with autism

Are there any of the ten outcomes where you feel you are performing well?

Transition planning in line with Special Educationa Needs statutory guidance. We have a well established transition service with positive joint working between Children's and Adults Services.

Are there any areas of good practice you could share with other localities?

The transition steering group is inclusive of young people and carers and is a very positive model of joint working
